

# **Debate Club**

## **Vivekananda College.**

Vivekananda College's Debate club has the aim to give the opportunity to the students for developing ideas regarding arguments, detecting and refuting fallacies, improving their exploration techniques and digital skills etc. Debate club has provided a platform for discussion and debate among the students in various subjects on burning issues. The debate Club separately organizes interdepartmental debate competition for Science, Arts and Commerce every year. This club also send our students to participate debate programs of other colleges. We introduce the participants to debate formats and encourage them to explore their skills which in long turn helps to develop confidence, public speaking, quick response and impromptu thinking aspects and help them in their career.
